

LEGAL SIMPLIFIER

Making Legal Language Understandable

for Everyone

■ Why This Idea?

Legal documents are often complicated, lengthy, and filled with jargon that most people struggle to understand. This

AI-powered web app will simplify legal contracts, policies, and regulations into plain, understandable language.

It will redefine norms in the legal sector by:

- Making legal information accessible to all
- Reducing dependency on lawyers for basic legal understanding
- Helping businesses and individuals understand their rights and responsibilities

■ Key Features

1) AI-Powered Text Simplification:

- a) Users upload a contract, policy, or law-related text.
- b) AI rewrites it in simple, easy-to-understand language.
- c) Shows legal terms with explanations & real-world examples.

2) Legal Chatbot:

- a) AI chatbot answers basic legal queries in real time.
- b) Provides case-based recommendations (e.g., "Can I break a lease early?").

3) Clause Risk Analyzer:

- a) AI detects risky clauses (hidden fees, penalties, unfair terms).
- b) Suggests negotiation tips to users.

4) Multi-Language Support:

- a) Legal documents translated & simplified into regional languages.

5) AI-Powered Contract Summarization:

- a) Generates quick bullet-point summaries of long contracts .
